Technical SEO Audit Report

Report date: 2026-10-02

Pages analysed: 18 | 24 issue type(s)

24 technical issue(s) found, affecting 317 page instances

■ P0 critical: 20 | ■ P1 important: 2 | ■ P2 minor: 2

■■ This report uses technical terminology and is intended for readers with a development background.

If you lack that background, ask a technical specialist to guide the remediation.

1. Executive Summary

This audit analysed 18 page(s) and found 24 distinct technical issues affecting 317 page instances.

The most severe issues are: Missing Breadcrumb Schema (18 pages), No Json Ld (18 pages), Canonical Points to Another Page (18 pages).

20 critical P0 issue(s) to fix this week; 2 important P1 issue(s) this month; 2 minor P2 issue(s) this quarter.

Prioritise issues affecting rankings and UX (duplicate titles/descriptions, missing alt text, breadcrumb schema) before performance optimisations.

2. Issue Overview

Priority	Issue	Affected pages	Pct	Fix effort
■ P0	Missing Breadcrumb S	18	100.0%	Low
■ P0	No Json Ld	18	100.0%	Low
■ P0	Canonical Points to	18	100.0%	Low
■ P0	No Canonical	18	100.0%	Low
■ P0	Missing Twitter Card	18	100.0%	Low
■ P0	Missing hreflang Tag	18	100.0%	Low
■ P0	Missing og:descripti	18	100.0%	Low
■ P0	No Og Title	18	100.0%	Low
■ P0	Duplicate Title Tags	16	88.9%	Low
■ P0	Duplicate Meta Descr	16	88.9%	Low
■ P0	No External Links	15	83.3%	Low
■ P0	Poor Content Quality	15	83.3%	Low
■ P0	Too Few Internal Lin	15	83.3%	Low
■ P0	Page Marked noindex	13	72.2%	Low
■ P0	Thin Content	13	72.2%	Low
■ P0	No Internal Links	13	72.2%	Low
■ P0	Duplicate Content Cl	13	72.2%	Low
■ P0	Needs Js Render	13	72.2%	Low
■ P0	Near-Duplicate Conte	13	72.2%	Low
■ P0	Duplicate H1 Tags	13	72.2%	Low
■ P1	Meta Description Too	1	5.6%	Low
■ P1	Images Without Lazy	1	5.6%	Low

■ P2	Missing Video Schema	2	11.1%	Low
■ P2	Heading Hierarchy Ga	1	5.6%	Low

3. Detailed Issue Diagnostics

Issue 1: Missing Breadcrumb Schema (No Breadcrumb Schema) ■ P0

Description: The page has no BreadcrumbList structured data, so search engines cannot show the site hierarchy as a URL path in the SERP.

Affects 18 page(s) (100.0% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080>

Example #2: <http://localhost:8080/auth/login>

Example #3: <http://localhost:8080/akademi>

Example #4: <http://localhost:8080/leaderboard>

Example #5: <http://localhost:8080/etalase/absensi-iot>

Fix: Add BreadcrumbList JSON-LD to every page, e.g. `{"@type":"BreadcrumbList","itemListElement":[{"@type":"ListItem","position":1,"name":"Home","item":"https://..."}]}`.

Issue 2: No Json Ld (No Json Ld) ■ P0

Description: Found 18 page(s) with this issue.

Affects 18 page(s) (100.0% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080>

Example #2: <http://localhost:8080/auth/login>

Example #3: <http://localhost:8080/akademi>

Example #4: <http://localhost:8080/leaderboard>

Example #5: <http://localhost:8080/etalase/absensi-iot>

Fix: Check the affected pages and apply the fix.

Issue 3: Canonical Points to Another Page (Canonical Not Self Ref) ■ P0

Description: The canonical tag does not point to the current URL, signalling this page is a duplicate.

Affects 18 page(s) (100.0% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080>

Example #2: <http://localhost:8080/auth/login>

Example #3: <http://localhost:8080/akademi>

Example #4: <http://localhost:8080/leaderboard>

Example #5: <http://localhost:8080/etalase/absensi-iot>

Fix: Set canonical to the page own URL for original content.

Issue 4: No Canonical (No Canonical) ■ P0

Description: Found 18 page(s) with this issue.

Affects 18 page(s) (100.0% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080>

Example #2: <http://localhost:8080/auth/login>

Example #3: <http://localhost:8080/akademi>

Example #4: <http://localhost:8080/leaderboard>

Example #5: <http://localhost:8080/etalase/absensi-iot>

Fix: Check the affected pages and apply the fix.

Issue 5: Missing Twitter Card Tags (No Twitter Card) ■ P0

Description: Without twitter:card tags the link renders as plain text on X/Twitter instead of a rich preview card, reducing click-through.

Affects 18 page(s) (100.0% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080>

Example #2: <http://localhost:8080/auth/login>

Example #3: <http://localhost:8080/akademi>

Example #4: <http://localhost:8080/leaderboard>

Example #5: <http://localhost:8080/etalase/absensi-iot>

Fix: Add `<meta name="twitter:card" content="summary_large_image">` plus twitter:title, twitter:description and twitter:image.

Issue 6: Missing hreflang Tags (Hreflang Missing) ■ P0

Description: No hreflang tags. For single-language sites this is expected; for multi-language sites it prevents search engines serving the correct regional version.

Affects 18 page(s) (100.0% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080>

Example #2: <http://localhost:8080/auth/login>

Example #3: <http://localhost:8080/akademi>

Example #4: <http://localhost:8080/leaderboard>

Example #5: <http://localhost:8080/etalase/absensi-iot>

Fix: For single-language sites, ignore. For multi-language sites add: `<link rel="alternate" hreflang="en" href="URL" />`.

Issue 7: Missing og:description (No Og Desc) ■ P0

Description: The page has no Open Graph description, so social platforms scrape arbitrary text — often navigation copy — when the link is shared.

Affects 18 page(s) (100.0% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080>

Example #2: <http://localhost:8080/auth/login>

Example #3: <http://localhost:8080/akademi>

Example #4: <http://localhost:8080/leaderboard>

Example #5: <http://localhost:8080/etalase/absensi-iot>

Fix: Add <meta property="og:description" content="..."> at 60-110 characters, tuned for social context.

Issue 8: No Og Title (No Og Title) ■ P0

Description: Found 18 page(s) with this issue.

Affects 18 page(s) (100.0% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080>

Example #2: <http://localhost:8080/auth/login>

Example #3: <http://localhost:8080/akademi>

Example #4: <http://localhost:8080/leaderboard>

Example #5: <http://localhost:8080/etalase/absensi-iot>

Fix: Check the affected pages and apply the fix.

Issue 9: Duplicate Title Tags (Title Duplicate) ■ P0

Description: Multiple pages share the same Title, causing ranking conflicts.

Affects 16 page(s) (88.9% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080>

Example #2: <http://localhost:8080/auth/login>

Example #3: <http://localhost:8080/akademi>

Example #4: <http://localhost:8080/leaderboard>

Example #5: <http://localhost:8080/etalase/absensi-iot>

Fix: Give every page a unique Title.

Issue 10: Duplicate Meta Descriptions (Meta Desc Duplicate) ■ P0

Description: Multiple pages share identical Meta Descriptions.

Affects 16 page(s) (88.9% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080>

Example #2: <http://localhost:8080/auth/login>

Example #3: <http://localhost:8080/akademi>

Example #4: <http://localhost:8080/leaderboard>

Example #5: <http://localhost:8080/etalase/absensi-iot>

Fix: Write a unique Meta Description per page: [core value] + [specific scope] + [CTA].

Issue 11: No External Links (No External Links) ■ P0

Description: Found 15 page(s) with this issue.

Affects 15 page(s) (83.3% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080/auth/login>

Example #2: <http://localhost:8080/akademi>

Example #3: <http://localhost:8080/leaderboard>

Example #4: <http://localhost:8080/etalase/absensi-iot>

Example #5: <http://localhost:8080/mitra>

Fix: Check the affected pages and apply the fix.

Issue 12: Poor Content Quality Grade (Content Grade Poor) ■ P0

Description: The composite score for length, structure, readability and information density is in the lowest band, usually alongside broken heading hierarchy and filler copy.

Affects 15 page(s) (83.3% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080/auth/login>

Example #2: <http://localhost:8080/akademi>

Example #3: <http://localhost:8080/leaderboard>

Example #4: <http://localhost:8080/etalase/absensi-iot>

Example #5: <http://localhost:8080/mitra>

Fix: Rewrite per the content-quality report: build a clear H2/H3 hierarchy, shorten paragraphs, add data and examples, and cut boilerplate.

Issue 13: Too Few Internal Links (Few Internal Links) ■ P0

Description: The page has very few internal links, limiting PageRank flow and making it hard for crawlers to discover related pages.

Affects 15 page(s) (83.3% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080/auth/login>

Example #2: <http://localhost:8080/akademi>

Example #3: <http://localhost:8080/leaderboard>

Example #4: <http://localhost:8080/etalase/absensi-iot>

Example #5: <http://localhost:8080/mitra>

Fix: Add 5-15 contextual internal links with descriptive anchor text, and ensure the page is linked from category or hub pages.

Issue 14: Page Marked noindex (meta) (Robots Noindex) ■ P0

Description: The robots meta tag contains noindex; search engines will not index this page.

Affects 13 page(s) (72.2% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080/akademi>

Example #2: <http://localhost:8080/leaderboard>

Example #3: <http://localhost:8080/etalase/absensi-iot>

Example #4: <http://localhost:8080/mitra>

Example #5: <http://localhost:8080/tentang>

Fix: Verify whether noindex is intentional. If not, remove it.

Issue 15: Thin Content (Thin Content) ■ P0

Description: The page has very little body copy and lacks substantive information, so it cannot compete with deeper competitor pages for user intent.

Affects 13 page(s) (72.2% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080/akademi>

Example #2: <http://localhost:8080/leaderboard>

Example #3: <http://localhost:8080/etalase/absensi-iot>

Example #4: <http://localhost:8080/mitra>

Example #5: <http://localhost:8080/tentang>

Fix: Expand to 800+ words of substantive content — specs, use cases, FAQs. If the page cannot be expanded meaningfully, merge it or exclude it with noindex.

Issue 16: No Internal Links (No Internal Links) ■ P0

Description: Found 13 page(s) with this issue.

Affects 13 page(s) (72.2% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080/akademi>

Example #2: <http://localhost:8080/leaderboard>

Example #3: <http://localhost:8080/etalase/absensi-iot>

Example #4: <http://localhost:8080/mitra>

Example #5: <http://localhost:8080/tentang>

Fix: Check the affected pages and apply the fix.

Issue 17: Duplicate Content Cluster (Duplicate Content Cluster) ■ P0

Description: More than 5 pages share >75% similar content.

Affects 13 page(s) (72.2% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080/akademi>

Example #2: <http://localhost:8080/leaderboard>

Example #3: <http://localhost:8080/etalase/absensi-iot>

Example #4: <http://localhost:8080/mitra>

Example #5: <http://localhost:8080/tentang>

Fix: Identify the primary page; redirect or canonicalise the rest.

Issue 18: Needs Js Render (Needs Js Render) ■ P0

Description: Found 13 page(s) with this issue.

Affects 13 page(s) (72.2% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080/akademi>

Example #2: <http://localhost:8080/leaderboard>

Example #3: <http://localhost:8080/etalase/absensi-iot>

Example #4: <http://localhost:8080/mitra>

Example #5: <http://localhost:8080/tentang>

Fix: Check the affected pages and apply the fix.

Issue 19: Near-Duplicate Content (Near Duplicate Content) ■ P0

Description: Page content is >70% similar to other site pages, reducing crawl efficiency.

Affects 13 page(s) (72.2% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080/akademi>

Example #2: <http://localhost:8080/leaderboard>

Example #3: <http://localhost:8080/etalase/absensi-iot>

Example #4: <http://localhost:8080/mitra>

Example #5: <http://localhost:8080/tentang>

Fix: 1) Merge similar pages; 2) canonicalise variants to the primary; 3) add unique content sections.

Issue 20: Duplicate H1 Tags (H1 Duplicate) ■ P0

Description: Multiple pages share the same H1, preventing search engines from distinguishing their core topics.

Affects 13 page(s) (72.2% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080/akademi>

Example #2: <http://localhost:8080/leaderboard>

Example #3: <http://localhost:8080/etalase/absensi-iot>

Example #4: <http://localhost:8080/mitra>

Example #5: <http://localhost:8080/tentang>

Fix: Give every page a unique H1. Append page number for paginated lists; add model or attribute for similar products.

Issue 21: Meta Description Too Long (Meta Desc Too Long) ■ P1

Description: Meta Description exceeds 160 characters and will be truncated in SERPs, reducing click-through rate.

Affects 1 page(s) (5.6% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080/jurusan/rpl>

Fix: Keep Meta Descriptions between 120–160 characters.

Issue 22: Images Without Lazy Loading (Images No Lazy) ■ P1

Description: Below-the-fold images lack loading="lazy", so the browser downloads every image immediately, slowing LCP and wasting mobile bandwidth.

Affects 1 page(s) (5.6% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080/auth/register>

Fix: Add loading="lazy" to all below-the-fold tags; keep the LCP hero image eager with fetchpriority="high".

Issue 23: Missing Video Schema (No Video Schema) ■ P2

Description: A long-content page (>500 words) has no VideoObject schema; videos cannot appear in the Videos SERP tab.

Affects 2 page(s) (11.1% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080>

Example #2: <http://localhost:8080/jurusan/rpl>

Fix: Add VideoObject schema with name, description, thumbnailUrl, uploadDate, contentUrl. Ignore if no video.

Issue 24: Heading Hierarchy Gap (Heading Hierarchy Gap) ■ P2

Description: Heading levels skip (e.g., H2 directly to H4). Non-sequential headings harm readability.

Affects 1 page(s) (5.6% of crawled pages).

Example URLs:

Example #1: <http://localhost:8080/auth/register>

Fix: Use headings in order H1→H2→H3→H4 without skipping.

4. Fix Priority Roadmap

■ Critical (P0) — fix this week

■■■■ Missing Breadcrumb Schema (18 pages, 100.0%)

Action: Add BreadcrumbList JSON-LD to every page, e.g. `{"@type":"BreadcrumbList","itemLi`

■■■■ No Json Ld (18 pages, 100.0%)

Action: Check the affected pages and apply the fix.

■■■■ Canonical Points to Another Page (18 pages, 100.0%)

Action: Set canonical to the page own URL for original content.

■■■■ No Canonical (18 pages, 100.0%)

Action: Check the affected pages and apply the fix.

■■■■ Missing Twitter Card Tags (18 pages, 100.0%)

Action: Add `<meta name="twitter:card" content="summary_large_image">` plus `twitter:title,`

■■■■ Missing hreflang Tags (18 pages, 100.0%)

Action: For single-language sites, ignore. For multi-language sites add: `<link rel="alte`

■■■■ Missing og:description (18 pages, 100.0%)

Action: Add `<meta property="og:description" content="...">` at 60-110 characters, tuned f

■■■■ No Og Title (18 pages, 100.0%)

Action: Check the affected pages and apply the fix.

■■■■ Duplicate Title Tags (16 pages, 88.9%)

Action: Give every page a unique Title.

■■■■ Duplicate Meta Descriptions (16 pages, 88.9%)

Action: Write a unique Meta Description per page: [core value] + [specific scope] + [CTA

■■■■ No External Links (15 pages, 83.3%)

Action: Check the affected pages and apply the fix.

■■■■ Poor Content Quality Grade (15 pages, 83.3%)

Action: Rewrite per the content-quality report: build a clear H2/H3 hierarchy, shorten p
